

MONO-COAT® MOLD RELEASE

Product Selection Guide

H.M. Royal is your trusted mold release agent supply partner, offering water-based, solvent-based, and silicone-free grades for low, medium, or high slip requirements. Our range includes options suitable for both simple and complex geometries, ideal for applications such as O-rings, anti-vibration components, and general rubber production. Products are available in 1-gallon cans, 5-gallon pails, and 55-gallon drums. We offer a variety of Mono-Coat grades to meet your specific needs. Use this guide to find the best product for your application.
